

RK6000 and RK7000 Grooving Styles

Choose from a standard design or create your own custom design.

RK6000

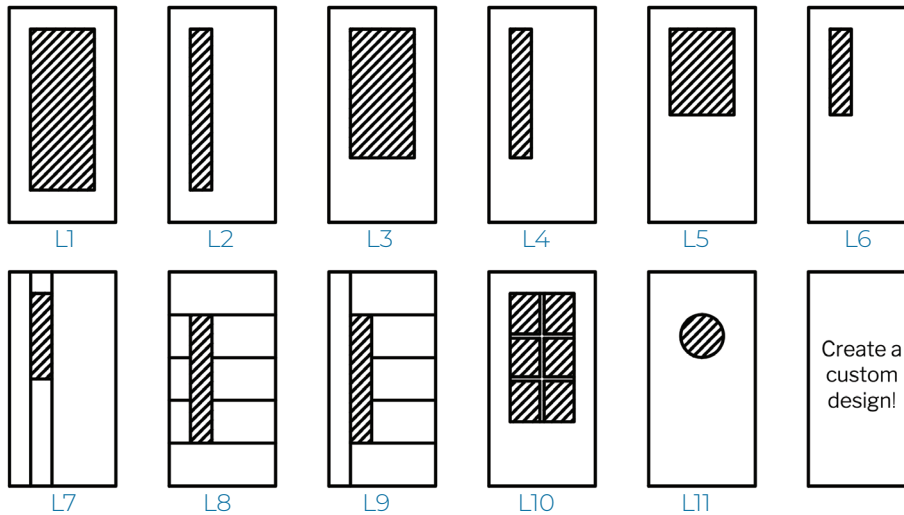

Standard grooving: 1/4" wide x 3/32" deep for 3mm HDF. 1/4" wide x 3/16" deep for 1/4" MDF. Groove dimensions can be specified by the customer.

RK7000

Solid wood inlays added to the door for grooving. 1/4" wide x 1/4" deep as standard. Groove dimensions can be specified by the customer.

RK6000 and RK7000 Lite Styles

Choose from a standard design or create your own custom design.

RK6000

Lite opening with glass stops as standard. Solid wood (poplar) surround for opening can also be added, or step-stop (flush on face side of door).

RK7000

Solid wood surround added for lite opening, standard glass stops or step-stop.
